

OBJECTIVE: Determine the most recent date/time that students have logged in to Compass

ADVANTAGES: In the case where student(s) may not be submitting assignments or not participating in class, instructors can view the Performance Dashboard in Compass to determine the number of days that have passed since the student accessed the Compass site.

STEPS TO DETERMINE LAST DATE/TIME STUDENTS LOGGED IN TO COMPASS:

1. Login to Compass 2g.
2. Click the course link.
3. In the left menu, click **Evaluation**.
4. Click **Performance Dashboard**.

5. The Performance Dashboard will display each student's name, netID, date and time of the last time they accessed the course ("Last Course Access"), and the number of "Days Since Last Course Access."
